EDUCATION

Bachelor of Engineering Technology in Computer Engineering Technology

Technological University of the Philippines
College: 2021 - Present

Pamantasan ng Lungsod ng Marikina
Senior High: 2019 - 2021

Sto. Nino National High School
Junior High: 2015 - 2019

Sto. Nino Elementary School
Elementary: 2008 - 2015

SKILLS

- Knowledge in HTML and CSS
- Basic knowledge in PHP, Java & JavaScript
- Basic knowledge in Python
- Attention to detail.
- Analytical and problem-solving skills
- Adaptable

PROFILE

A committed and detail-oriented fourth-year Computer Engineering Technology student at the Technological University of the Philippines. I am seeking an internship opportunity to contribute and apply my skills and knowledge gained through education and develop professional proficiencies in a dynamic work environment of computer and technology field.

ACADEMIC PROJECTS

My academic experience includes a variety of projects that have allowed me to develop several skills;

E-commerce Website

Developed a functional e-commerce website that sells several skin care products. It was developed in Visual Studio Code using HTML, CSS, JavaScript, PHP, and MySQL for database management. The platform features a user-friendly interface for customers to browse, select, and purchase skincare products. Additionally, an admin panel empowers sellers with full control over product listings, order management, and customer information as per terms and conditions.

Blog Website

Developed a personal blog website using HTML and CSS to showcase written responses to thought-provoking prompts. The project emphasized effective website layout, navigation, and visual appeal through image simple integration.

Basic Electronics

Built Arduino-based prototypes focusing on microcontroller programming and electronics. Explored basic circuit design and implementation, including prototypes for timers, sensors, and LED patterns.

LANGUAGE

Filipino | English
